

# 10<sup>th</sup> IMG PhD conference

2<sup>nd</sup> June 2017

Keynote lecture

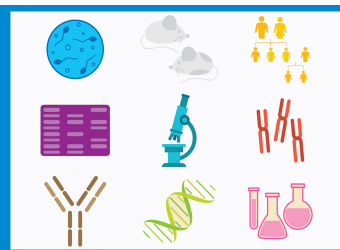

**Diego Pasini, PhD**

European Institute of Oncology, Milan, Italy

# 10<sup>th</sup> IMG PhD conference

## Programme

09:00 - 09:15 Opening- Petr Dráber

09:15 - 09:35 Iva Šplíchalová: Toll-like receptor 2 in embryonic hematopoiesis

09:35 - 09:55 David Příkryl: ALV-K: new virus, new receptor?

09:55 - 10:15 Jana Uhlířová: The role of TPR in chromatin organization

10:15 - 10:35 Imtissal Krayem: Strong Epistasis in Genetics of Leishmaniasis - Search for Genes and Mechanisms

10:35 - 11:00 Coffee break

11:00 - 12:00 EMBO YOUNG INVESTIGATOR LECTURE

Diego Pasini: Control of Cell Identity by the Polycomb Group of Chromatin Modifiers

12:00 - 13:00 Lunch

13:00 - 13:20 Alena Moudrá: Does TCR specificity determine cell fate?

13:20 - 13:40 Veronika Horková: Dealing with polyclonal T cells - Jurkat model for the cell fate decision

13:40 - 14:00 Václav Gergelits: Detection and characterization of Non-crossovers

14:00 - 14:30 Claudia Kutter: Intertwined evolution of mammalian coding and noncoding transcriptomes

14:30 - 14:40 Coffee break

14:40 - 15:00 Petr Daněk: Canonical Wnt/ $\beta$ -catenin signaling suppresses proliferation of hematopoietic progenitors

15:00 - 15:20 Sara Escudeiro-Lopes: Characterization of lamin A/Phosphatidylinositol-4,5-bisphosphate complex

15:20 - 15:40 Vojtěch Matoušek: Analysis of transcriptional regulations in retinal specification of human embryonic stem cells

15:40 - 16:00 Ivan Novotný: Light Microscopy

16:00 - 16:05 Voting for the Best Presentation

18:00 - 00:00 Best Presentation announcement, closing remarks
