

INFORMATION PROVIDED TO DATA SUBJECTS ACCORDING TO THE GENERAL DATA PROTECTION

I. Preamble

The Institute of Molecular Genetics of the Czech Academy of Sciences, Company ID No.: 68378050, with its registered office at Vídeňská 1083, Prague 4 - Krč, postal code 142 20, (hereinafter "**IMG**") participates as a main partner in the Czech-Biolmaging project, within which an open access to biological, medical imaging equipment, tools and expertise involved in that infrastructure by IMG and other project partners, is provided.

The other partners of the project, and therefore the joint controllers, are:

- Institute of Physiology CAS, p.r.i., ID No.: 67985823, with its registered office at Vídeňská 1083, Krč, 142 00 Prague
- Biology Centre CAS, p.r.i., ID No.: 60077344, with its registered office at Branišovská 1160/31, 37005 České Budějovice
- Charles University in Prague - 1st Faculty of Medicine, ID No.: 00216208, with its registered office at Kateřinská 1660/32, 121 08 Prague 2
- Brno University of Technology, ID No.: 00216305, with its registered office at Antonínská 548/1, Veveří, 602 00 Brno
- Palacky University Olomouc, ID No.: 61989592, with its registered office at Křížkovského 511/8, 779 00 Olomouc
- Masaryk University Brno, ID No.: 00216224, with its registered office at Žerotínovo náměstí 617/9, Brno-město, 602 00 Brno
- Institute of Experimental Botany CAS, p.r.i., ID No.: 61389030, with its registered office at Rozvojová 263, Lysolaje, 165 00 Prague
- Institute of Scientific Instruments CAS, p.r.i., ID No.: 68081731, with its registered office at Královopolská 62/147, Královo Pole, 612 00 Brno
- BioCeV - Biotechnology and Biomedicine Centre of the Academy of Sciences and Charles University in Vestec (BioCeV) - legally represented by Charles University in Prague
- CEITEC - Central European Institute of Technology (CEITEC) – legally represented by Masaryk University Brno

This information is provided in accordance with the provisions of Article 12 et seq. of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data data) (hereinafter referred to as the "**Regulation**").

This information is provided in connection with the processing of personal data by IMG and other partners in connection with open access in the framework of involvement in the research infrastructure of Czech-Biolmaging display workplaces and ensuring the implementation of this infrastructure by individual scientific / research entities.

Personal data may be processed by contract processors, which are mainly SEPIA SOFT s.r.o., ID No.: 04491254, with its registered office at Krymská 238/18, 101 00, Prague 10, as the operator of the system gReception for central registration of open-access projects.

In the event that the processing of data by the IMG is further mentioned, this processing may also be done for this purpose by the project partners or processors. All data is collected centrally by IMG, as the main partner of the project, and thus the main controller of personal data.

II. IMG contact details

In connection with the issue of personal data processing, it is possible to contact IMG through this data:

Phone: +420 241 063 215

Fax: +420 224 310 955

E-mail: office@img.cas.cz

Data box: 5h4n xm4

Person responsible for processing personal data in connection with ensuring open access to the Czech-Biolmaging infrastructure:

Prof. Pavel Hozák, Ph.D., D.Sc. (pavel.hozak@img.cas.cz)

The position of a data protection officer for IMG is held by:

Jitka Oliberiusová, M.A. (gdpr@img.cas.cz)

III. Personal Data Processing

IMG processes personal data that are necessary for the implementation of the activities listed in Article I, i.e. for the implementation of activities in the Czech-Biolmaging project while ensuring open access

to infrastructure consisting mainly of records of access, making reservations for efficient use of infrastructure, efficiency evaluation, etc.

These are particularly:

1. Identification data (name, surname, university degree)
2. Contact details (email address)
3. Information related to the activities of data subjects (from which organization or research institution and country is the data subject, position in this organization / research institution, identification of the project in which the data subject participates and within which it intends to use the Czech-Biolmaging infrastructure)
4. Information on the use of devices for Czech-Biolmaging (information on the specific time period of use - day, month, year, hours, number of times the device was used, number and specific identification of devices that were used by the data subject, including their serial number)

Personal data are processed in accordance with Article 6 of the Regulation:

- in connection with a contractual arrangement enabling access to the infrastructure included in the Czech-Biolmaging project
- on the basis of the IMG's legitimate interest
- on the basis of fulfilling the obligations arising for the IMG from the involvement in the Czech-Biolmaging project.

The legitimate interest in the processing of personal data on the part of IMG is in particular the protection of assets included in the Czech-Biolmaging infrastructure, as well as other assets. In connection with the fulfillment of the objectives of the Czech-Biolmaging projects and the fulfillment of obligations within this project, specific users of the infrastructure and projects for which the infrastructure has been used by these users must be registered.

Personal data is provided to IMG directly by the data subjects, or by the project managers for whose purposes the Czech-Biolmaging infrastructure is used.

IMG emphasizes the protection of personal data processed by it. The processing of personal data takes place through an electronic system, where the data are entered into the system directly by the data subject or the project manager in which the data subject participates and who uses the Czech-Biolmaging infrastructure. According to the rules of open access to the Czech-Biolmaging infrastructure, it is not possible to use the device included in the Czech-Biolmaging project without providing the personal data of the person who will work with the required devices.

The person entering the individual users for the relevant project, within which the Czech-Biolmaging infrastructure is to be used, and thus their personal data (most often the head of the relevant project), is obliged to acquaint all users whose personal data have been provided in this context by the IMG.

IMG does not use in connection with this processing the so-called automated decision-making (including profiling), i.e. the prediction of aspects in the behavior of persons through computer technology.

Personal data are processed for the time of their necessary need to achieve the purpose of their processing. With regard to the need to control the use of devices, as well as the obligation to transmit data in connection with subsidies provided for the modernization of the Czech-BioImaging infrastructure, personal data will be stored for the period specified in the rules for providing subsidies, however never longer than the period of IMG's involvement in the Czech-BioImaging research infrastructure.

IV. Transfer of personal data

The IMG states that in connection with ensuring access to the infrastructure included in the Czech-BioImaging project, personal data may be transferred to third parties, in particular:

- the Ministry of Education, Youth and Sports of the Czech Republic, as an entity providing subsidies for the acquisition of infrastructure included in the Czech-BioImaging project;
- to other entities providing subsidies or otherwise supporting the Czech-BioImaging project, if the transfer of data does not conflict with the law;
- other entities designated by law (control authorities, etc.).

V. Rights of persons whose personal data are processed

The person whose personal data is processed by IMG is, in addition to other rights under the Regulation, entitled in particular:

1. to request the IMG to communicate whether it processes personal data and to provide specific information on the processing, as well as to request access to such personal data;
2. request the correction, deletion or restriction of the processing of personal data, raise an objection to the processing of personal data;
3. to file a complaint regarding the processing of personal data from the IMG with the Office for Personal Data Protection, with its registered office in Pplk. Sochora 27, Prague 7, postal code 170 00.
